

Download your BSA Mobile Directory

BSA's **mobile directory app** makes it easy to access BSA members and participating manufacturers from your smart phone, iPad or other mobile device(s). To access the app, simply [click on this link](#) from your mobile device or copy and paste it in the url of your mobile device browser to download the BSA Directory app. Since the Directory is only available to members and participating manufacturers, you will need your username and password to open the link. To save the BSA Directory on your mobile device, open the directory and use the "Add to Home Screen" icon for later use. It will appear as the BSA logo with the words, "BSA Directory" on your app screen. After saving the BSA Directory on your mobile device, you can open it in the usual way, by clicking on the app. Please note the first time you open the BSA Directory on your mobile device, it will take a few minutes to download the data. After saving the Directory app icon, it will open immediately when you click on the icon.
